QCAM strengthens presence in the Middle East

QCAM Currency Asset Management AG is pleased to announce the appointment of Alan O'Donnell as Senior Advisor Middle East. This step marks an important milestone in the company's growth strategy to serve institutional investors across the Arab world.

Since its founding in 2005, the Zug-based firm has established itself as a leading Swiss specialist in foreign exchange and short-term fixed income management, with approximately CHF 7 billion in assets under management. Over the past 21 years, QCAM has built a strong track record serving institutional clients who value the firm's quality and reliability.

As part of its growth strategy, QCAM has decided to establish a dedicated presence in the region. The company sees significant potential for its services among institutional investors in the United Arab Emirates and the broader Arab world. In particular, its offering in short-term USD fixed income, with a focus on high-quality Swiss issuers, represents a compelling opportunity for large investors seeking a secure, liquid and professionally managed investment solution in Switzerland. In this area, QCAM has successfully been active since 2012 and, in collaboration with UBS Switzerland, launched in 2025 a dedicated fund with initial capital of USD 1 billion.

To support its expansion on the ground, QCAM is delighted to welcome Alan O'Donnell to the team. Alan O'Donnell brings more than 25 years of experience in the financial industry, including senior roles at Rabobank and UBS in London and Zurich. He has been based in Abu Dhabi for the past 20 years and brings with him an extensive local network that will be instrumental in advancing QCAM's growth ambitions in the region.

Thomas Suter, CEO and Delegate of the Board of Directors of QCAM, commented: "We are very pleased to welcome Alan O'Donnell to QCAM. He has a deep understanding of the regional culture and business environment and is also highly familiar with the Swiss financial centre. We are confident that Alan will play a key role in driving our growth in the Arab world, as our product offering is particularly attractive to large investors in the region."
